

Yorkshire Performance Pathway Overnight Stay Policy

There may be several instances during a player's time on the Performance Pathway that they may either choose or are required to stay overnight for games or training.

Unless the overnight stay is specifically organised by a member of Performance Pathway staff, responsibility for all players will sit with that player's parent and/or guardian from the moment they leave the ground/training location up until they return the next day.

For overnight stays which are organised by the Performance Pathway and where Performance Pathway staff will act as the responsible individuals (for example overnight stays in dorms at Festivals), all players must follow certain guidelines, as stated below:

- Players are allowed to keep phones with them for the purposes of contacting families, but videos and/or pictures of other individuals are not to be taken whilst staying overnight.
- Players are to abide by the specific rules set out by the coaches/staff in regards to use of any facilities. Coaches/staff will detail any facility specific guidelines dependent on where players are staying.
- Players are not to leave the facility unaccompanied at any point. Any player leaving the facility for any reason must first discuss and agree this with the responsible coach/member of staff.

The Performance Pathway team will clearly identify a point of contact to all parents/guardians for overnight stays and also detail how to contact them at the venue should the need arise.

Players or parents may discuss any of the points mentioned above with the responsible member of staff or Head of Safeguarding – Joy Walker – joy.walker@yorkshireccc.com, mobile 07512 312212 – if necessary.
